

## Technical Data Sheet

### Industrial Rain Wear Safety Jacket

Doc. No.

Modal No.

The Rain Wear Safety Jacket is designed to provide maximum protection in pure weather conditions while ensuring high visibility in low-light or dark environments. Its lightweight fabric ensures comfort and reduces fatigue, making it suitable for long hours of use. With the added benefit of reflective material or a similar alternative, this jacket enhances visibility in challenging weather conditions, keeping you safe in environments with limited visibility.

#### Features:

- **Maximum Protection:** Built to endure harsh weather conditions, ensuring you stay dry and protected.
- **Reflective Material:** Provides **visibility in dark conditions**, increasing safety for workers in low-visibility environments.
- **Lightweight Design:** Ensures **better comfort** and reduces **fatigue**, making it suitable for extended wear.
- **Durable and Functional:** Keeps you visible and dry, providing all-day comfort and protection in all weather conditions.
- **Washing instructions:** Suitable hand wash in warm water, air dry, do not bleach, do not warm hot.
- **WATERPROOF:** 150D oxford polyester outer shell + PU coating resists wind and water to keep you dry.
- **ALL-PURPOSE:** Rain Gears suitable for men and women construction, hunting, farming, hiking, camping, fishing, tactical, shooting, army, paintball, off-road.
- **BUILT TO LAST:** Rain Suit black panels on the sleeves and front of jacket to hide dirt and wear for long lasting wear. Unisex design, durable rain suit for men/women.
- This suit is perfect for outdoor activities in Spring, Fall and Winter. It is waterproof and windproof, it will keep you warm.

The **Rain Wear Safety Jacket with Reflective Material** is the ideal solution for professionals in construction, logistics, aviation, and other outdoor sectors where visibility and weather protection are crucial.
